Sungkyunkwan University

📅 Feb 2021 – Feb 2026 🎓 GPA: 3.63/4.0

PROJECTS

BV - Blockchain Visualiser

Graduation Project

📅 On-going 🌐 23-jose/blockchainvisualiser

BV is a platform that offers easy access to Bitcoin and Ethereum transaction data and energy consumption estimations, in order to improve transparency and awareness of their environmental impact.

Hallyu-Go

Group Project

📅 Sept-Dec 2024 🌐 23-jose/Capstone_Team_F

HallyuGo is a guide map application to help users explore Hallyu hotspots. This application provides a comprehensive guide for exploring the best destinations tied to K-Culture.

PoW vs. PoS

Individual Paper

📅 Dec 2024 🌐 23-jose/PoW_vs_PoS

Two blockchains with different consensus mechanisms were compared across different metrics (CPU usage, memory usage, disk usage and network traffic) in order to assess energy consumption.

Anonymous ACL submission

Group Project

📅 Nov 2023 🌐 23-jose/AnonymousACL

Simulated the anonymous submission and peer review process of papers to an ACL-style conference, and gained experience with the practical applications of artificial intelligence through traditional supervised learning methodologies and prompt engineering.
